USSN: 10/663,314

REMARKS

Claims 1-25 are pending in the above-identified patent application. Claims 22 and 25 are amended herein. Claims 26-28 are canceled. No new matter is introduced.

1. **Allowed Subject Matter**

The Applicants note with appreciation that claims 1-21 and 24 are deemed allowable.

2. **Rejoinder of Method Claims**

The Examiner indicated that method claims (Groups III and V) which are commensurate in scope with allowable claim 1 could be rejoined, and that an Amendment resulting in method claims commensurate in scope with the allowed claims would be considered.

Applicants have accordingly amended method claim 22 (Group III) to depend from allowed claim 1 and include the limitations of claim 1. Previously withdrawn claim 23 depends from amended claim 22.

Method claim 25 (Group V) depends from allowable claim 1. Applicants have amended claim 25 to recite more specifically the treatment of 5-HT₆-mediated memory disorders and Alzheimer's disease. Claims 26-28 have been canceled.

Applicants respectfully believe that amended claims 22 and 25 are commensurate in scope with allowable claim 1 and include only elected subject matter.
